

Part 2 — The 90/60/30 Master Checklist

The ninety days before you fly: paperwork, money, health and the garage. Every item from Chapters 5 through 9 in one spread. Work backwards from your departure date.

Departure date: _____ Day 90 falls on: _____ Day 60: _____ Day 30: _____

90 days out

The slow-moving items. Everything here has a queue in front of it.

- ☐ Passport audit: 2+ years validity, 12+ blank pages; renew if short
- ☐ Solicitor booked: enduring POA + will
- ☐ Degree into legalisation pipeline (if any chance of working)
- ☐ Accountant hour booked; Chapter 6's eight questions printed
- ☐ Insurance decision made, applications started
- ☐ Travel clinic booked (8 weeks before departure)
- ☐ Re-buy test run room by room; big items selling

60 days out

Gathering and verifying. Paper becomes a folder; accounts become tested accounts.

- ☐ Certificates gathered + certified copies; everything scanned to cloud + USB
- ☐ Home-front dossier drafted (POA, will location, findability kit)
- ☐ Mail redirection arranged; multi-currency account(s) opened and verified
- ☐ Second bank account live; banking apps tested without mailed codes
- ☐ Vaccination course underway; GP check + records export; dental + skin checks
- ☐ Medication transition plan agreed with GP (30-day / 7-day / 10-day import limits understood)
- ☐ Emotional inventory conversation done; one-box selection made

30 days out

Fresh-dated documents and the last conversations.

- ☐ Police check ordered (if working), timed fresh
- ☐ Passport photos ×12 each; document folder printed and assembled
- ☐ Banks notified of long-term travel; bills on auto-pay; cards expiry-checked
- ☐ Australian mobile ported to keep-alive plan; 2FA lifeline tested
- ☐ Scripts + GP letter finalised; medicines packed in original packaging
- ☐ Suitcase list bought: shoes in your size, real sunscreen, antiperspirant
- ☐ One box sealed and delivered to its keeper
- ☐ First 1–2 weeks' accommodation booked (no more); arrival cash arranged
- ☐ Trusted person briefed over a long dinner you pay for

Sequence note. The scouting trip belongs *before* this countdown. Part 1's decision, then the trip to test it, then this ninety-day machine. Selling the house to fund a decision you haven't tested is doing the book backwards.
